5.3.3 If the specific selection/area of activity does not have a quota candidate (person with a disability and/or black person) registered or approved under these conditions, the respective candidate may be approved and calls will take place observing the classification of the broad competition list.

5.3.4 The public draw of the order of which selections/areas of specific activity will be reserved primarily for candidates with disabilities and black people, will only take place after the deadline for appealing the results of the tests and complementary procedures for selections that have candidates with disabilities and black people approved.

5.3.5 The public draw will define, in each of the reserves (people with disabilities and black people), the order of priority of selections/areas of knowledge in which approved quota candidates must be called, and to this end, the following procedure must be observed:

5.3.5.1 After the deadline for appealing the results of the tests and complementary procedures has passed, the UFJF Dean of People Management will carry out a survey of the specific selections/areas of activity of the respective notice in which there was an approved quota holder (PwD or PN).

5.3.5.2 The order of priority referred to in item 5.3.5 will be drawn with precedence for the reserve that has the smallest number of selections/areas of specific activity with an approved quota candidate, as follows:

a) the reservation for people with disabilities will take precedence in the order draw, if it has the smallest number of selections/specific areas of activity with an approved quota candidate in relation to the reservation for black people.

b) the reservation for black people will take precedence in the order draw, if it has the smallest number of selections/specific areas of activity with an approved

quota candidate in relation to the reservation for people with disabilities;

c) if this quantity is identical, the precedence will also be defined through a draw.

5.3.5.3 Define, through a draw, and in accordance with the precedence provided for in item 5.3.5.2, the order of successive priority that will affect the reservation of vacancies for PwD or BP among those selections/areas of specific activity that had approved quota candidates in the respective condition.

5.3.5.3.1 The draw of the selections/areas of specific activity of the reserve with precedence, under the terms of item 5.3.5.2, will be carried out without replacing the selections/areas of specific activity already drawn and will include all selections that have quota candidates approved in the respective condition (PwD or BP)).

5.3.5.3.2 The draw of the selections/areas of specific activity of the reserve without precedence, under the terms of item 5.3.5.2, will be carried out without replacing the selections/areas of specific activity already drawn, covering all selections that have quota candidates approved in the respective condition (PwD or BP).

5.3.5.4 The results of the draws will be recorded in lists with priority orders for both PwD and BP, which will be published in <https://www.ufjf.br/propp>

5.3.6 The call for approved quota candidate candidates for immediate vacancies will only occur after the appeal period against the act of approval of the final result of all selections/areas of specific activity that have candidates registered and approved as quota holders.

5.3.7 The call for approved quota candidate candidates for immediate vacancies will also observe the order of precedence referred to in item 5.3.5.2, as follows:

a) the reservation for people with disabilities will take precedence in the call, if it has the smallest number of selections/specific areas of activity with an approved quota candidate in relation to the reservation for black people.

b) the reservation for black people will take precedence in the call, if it has the smallest number of selections/specific areas of activity with an approved quota candidate in relation to the reservation for people with disabilities.

c) If this quantity is identical, the precedence will also be defined through a draw.

5.3.7.1 If the candidate called for the immediate reserve position on the list with precedence declines, the next approved candidate will be called for the respective selection/specific area of activity on the reserve list with precedence, observing the order of classification.

5.3.7.2 If there is no other approved candidate on the list with precedence to fill the immediate vacancy allocated to the respective reserve, the candidate from the respective selection/specific area of activity on the reserve list without precedence will be called, observing the order of priority, the order classification and legal limits.

5.3.7.3 If there is no quota candidate approved for the respective selection/specific area of activity, the candidate approved in the Broad Competition will be called.

5.3.8 Within legal limits, as long as they have been approved and observing the precedence and order drawn, candidates with disabilities, as well as black candidates will occupy the first respective vacancy, even if this is the only one and their classifications do not guarantee them the first position in the general classification of the selection/specific area of activity.

5.3.9 For other vacancies that may arise during the validity of the selections/specific areas of activity, the calls for candidates will observe the specific classifications in each specific selection/area of activity and the following provisions:

a) if the specific selection/area of activity has immediately offered 1 (one) single vacancy and has already had a candidate called as a Person with Disability quota holder as a result of the immediate reservation being made, the call for new vacancies that arise will observe the following dynamics:

1st Round	Person with Disabilities (PwD) - Summoned
2nd Round	Broad Competition – Next to be summoned
3rd Round	Black Person (BP) – Next to be summoned
4th Round	Broad Competition – Next to be summoned
5th Round	Broad Competition – Next to be summoned

b) if the specific selection/area of activity offers, immediately, 1 (one) single vacancy and has already had a candidate called as a black quota holder as a result of the immediate reservation being made, the call for new vacancies that

arise will observe the following dynamics:

1st Round	Black Person (BP) – Summoned
2nd Round	Broad Competition – Next to be summoned
3rd Round	Broad Competition – Next to be summoned
4th Round	Broad Competition – Next to be summoned
5th Round	Person with Disabilities (PwD) – Next to be summoned

c) If the specific selection/area of activity did not have a candidate called as a Black or Person with Disability quota member when making immediate reservations, the call for new vacancies that arise throughout the validity period will observe the following dynamics:

1st Round	Broad Competition – Summoned
2nd Round	Broad Competition – Next to be summoned
3rd Round	Black Person (BP) – Next to be summoned
4th Round	Broad Competition – Next to be summoned
5th Round	Person with Disabilities (PwD) – Next to be summoned

5.3.10 If new candidates are invited in the respective selections/areas of specific activity in addition to the numbers established in the sub-items of the item 5.3.10 such calls will observe the criteria of alternation and proportionality between broad competition and reserves.

5.3.12 If more than a single vacancy has been offered immediately, the dynamics of calling for vacancies that arise throughout the validity period of the specific selection/area of activity must be adjusted and, in each case, must observe the legal limits.

5.3.13 If the total immediate offer provided for in this notice is a number of vacancies equal to or less than 02 (two), for the same specific area of activity or for different specific areas of activity, there will be no immediate reservation for Black Person (BP) or for Persons with Disabilities (PwD).

5.3.13.1 In this case, the following dynamics will be observed for each of the specific areas of activity:

1st Round	Broad Competition – Summoned
2nd Round	Broad Competition – Next to be summoned
3rd Round	Black Person (BP) – Next to be summoned
4th Round	Broad Competition – Next to be summoned
5th Round	Person with Disabilities (PwD) – Next to be summoned

5.3.13.2 If the total immediate offer provided for in this notice is a number of vacancies equal to or greater than 03 (three), for the same specific area of activity or for different specific areas of activity, there will be immediate reservation for Black Person (PN), and must comply with applicable legal and regulatory provisions.

5.3.14 If the total immediate offer provided for in this notice is a number of vacancies equal to or less than 05 (five), for the same specific area of activity or for different specific areas of activity, there will be no immediate reservation for Person with Disability (PwD).

5.3.14.1 In this case, the following dynamics will be observed for each of the specific areas of activity:

1st Round	Broad Competition – Summoned
2nd Round	Broad Competition – Próxima a ser convocada
3rd Round	Black Person (BP) – Próxima a ser convocada
4th Round	Broad Competition – Próxima a ser convocada
5th Round	Person with Disabilities (PwD) – Próxima a ser convocada

5.3.14.2 If the total immediate offer provided for in this notice is a number of vacancies equal to or greater than 05 (five), for the same specific area of activity or for different specific areas of activity, there will be immediate reservation for Persons with Disabilities (PwD), and must observe the applicable legal and regulatory provisions.

5.3.15 The provision for immediate reservation of vacancy(ies) does not prevent the registration of other candidates, however, the applicable legal and regulatory provisions must be observed.

5.3.16 Omitted cases, doubts and possible questions regarding vacancy reservations will be the subject of joint deliberation between the heads of institutional bodies responsible for affirmative action policies and the Dean of People Management with priority legal advice from the UFJF Attorney's Office.
